

**Humboldt State University**  
**Addendum to the Student Learning Plan for Service Learning & Academic Internship Courses**  
**Intellectual Property with For Profit & Non-Profit Organizations**

When students are completing their academic internship course experiences at a for-profit or non-profit community partner site, all parties (students/ faculty/ community partner) will sign this Addendum of Understanding:

Students enrolled at the University may create valuable intellectual property while fulfilling course requirements that may or may not be in conjunction with employment/award, and/or through the use of University resources. The ownership interests in such intellectual property depend on the particular circumstances surrounding the creation. In particular, students must be careful to differentiate their own creative contributions from those of their faculty and if the student is employed by an outside entity (not the University or Foundation) and the creation falls within the scope of that employment. Under these circumstances, the student normally will be bound by a contract with the outside entity, including provisions intended to protect and allocate intellectual property rights, and the University will have no rights to the intellectual property developed. University resources may not be used unless a prior special intellectual property agreement is in place.

**Assignment of Course Project**

For good and valuable consideration, the receipt of which is hereby acknowledged, I, \_\_\_\_\_, (hereinafter "Assignor") a student of Humboldt State University, a public university located in Arcata, California, at 1 Harpst Street, Arcata, California 95521, do hereby assign, sell and transfer to \_\_\_\_\_ (hereinafter "Assignee"), and the successors, assigns and legal representatives of the Assignee, the entire worldwide right, title and interest, including the rights to claim priority, in and to any and all improvements which are disclosed in the course project entitled \_\_\_\_\_.

Assignor further agrees that Assignee will, upon its request, be provided promptly with all pertinent facts and documents relating to said course project and any legal equivalents which may be known to Assignor.
